TUESDAY, JANUARY 22, 1889.

HOPKINSVILLE, KENTUCKY.

A live and growing city of 8,000 inhabitants, situated in a county of 40,000. The Louisville and Nashville has two lines of railroad, one county and the people have recently voted aid to the Louisville and Nashville, the fastest growing county in the world. Wheat, corn, hay, coal, live stock and fruits produced for export in large quantities. The Louisville and Nashville has four banks with an aggregate capital of \$10,000,000. A planing mill and wagon factory, a carriage factory, a foundry, a tannery, tobacco manufactory, two foundries, three brickyards, broom factory, steam laundry, ice factory, two large flouring mills in the city, and several in the country. Splendid driving park and racetrack houses. Five turnpikes running in Hopkinsville. The Cairo and Louisville, Cairo and Paducah, a telegraph exchange, paved streets and homes and city lighted by gas. Manufacturing streets and brick sidewalks all over the city. Eleven churches, two colleges, a high school and the best system of public schools, white and colored, in the State. Westcrus, a large and well-constructed hotel, 100 rooms, two miles east of the city. A 100-room court house with town clock in the dome. A fine fire department and a company of state guards. Little River furnishes an adequate supply of water for all purposes. Real estate low and rental cheap. Fine property for woolen mills, cotton mills, etc., in the city. Lumber, tannery, laundry and many other enterprises. Climate mild and invigorating and exceedingly healthful.

Perhaps President Hammer, of Switzerland, could give Gov. Harrison some points about cabinet-making.

A washboard trust has been formed but trust on another kind of board would get close to the hearts of the vox populi.

The Chesapeake & Ohio Railroad has been merged to the Central Mortgage Company, of New York, for \$30,000,000.

The House passed the "Omnibus Bill" Friday, providing for the admission of five new States. It will now go to the Senate.

Senator Blair's "Sunday Rest Bill," is one of considerable importance, but what the country really wants to be given is a rest on cabinet speculations.

A thousand cigar-makers have struck at New York on account of a cut in their wages, made a year and a half ago. The leaders must "draw" better than their wares, to get so many to follow them.

You had better examine any old trunk you have about the house. \$100,000 in greenbacks and bonds was found in an old trunk at New Orleans the other day, which had been the property of a miser.

The Clarksville Chronicle has enlarged to seven columns and the Progress promises to do likewise in a few days. These two sprightly dailies are just now engaged in the foolish undertaking of cutting and slashing at each other's vital organs, which may result in the annihilation of both of them.

What does the Hon. Jim McKenzie want and when is he going to ask for it? Kentucky would like to do something handsome for him, but he must do the selecting—Louisville Courier.

Perhaps at the proper time he will make his wants known, whatever they may be.

The editor of the Frankfort Capital is publishing a series of answers by prominent persons to the question: "What is the best thing you ever read?" As our question has not come to hand, it has probably been lost in the mists. However, we do not remember to have ever read anything that made a better impression on us than the simple inscription: "Dear Sir—Enclosed find \$2.00, for which please send me the Kentuckyans for another year."

The merchants are all pleased with the business outlook and satisfied with the season's business. Hopkinsville has never done such a winter trade before, although the weather has been ruinously mild for winter goods. One firm that brought on 900 overcoats has sold over 800 of them and nearly all merchants who have advertised their goods have had a good trade. Times are getting de cidedly better and 1889 is going to be a prosperous year all round if the signs are not misleading. Just be a little patient, the boom is coming.

The Hurricane precinct of Crittenden county had an election on the 16th on a proposition to vote \$10,000 to the capital stock of the Princeton, Marion & Ohio River Railroad. It was one of the closest and most hotly contested elections ever held in the Purchase, and resulted in a victory for the railroad men by 3 majority. The road is part of the Cairo short line system. It will be controlled by that road when built. The scheme is to connect with the O. V., at Princeton, giving St. Louis and Cairo an air line route to the Southern cities.

The Cudiz Telephone suggests Mr. Jno. D. Shaw, of that place, as a suitable and prospective candidate for clerk of the Court of Appeals. Mr. Shaw has had many years experience in this kind of work and is fitted in every way for the proper discharge of the duties of the office to which he will probably aspire. His moral character and personal habits are above approach and this fact is going to cut a big figure in the next convention. The people are not going to tolerate any more Tombsbury in state scenes. Mr. Shaw is a gentleman in every sense of the word, has always made a good officer and is just the kind of man to be nominated next year.

Railroad Man at Pembroke.

A correspondent at Pembroke, Ky., contributes a very readable article to the Clarksville Progress of the 18th, just over the signature of "Pembroke." It is hard to tell exactly where to class "Pembroke" as a writer. He seems to be a cross between a humorist and a boomer. He appears to be an ardent railroad man and shows a lively interest in the matter of building up Clarksville, which is the expense of his own home interests. Here is the way he begins: "The Cairo & Cumberland Gap railroad is in course of construction, commencing at Cairo, on the Mississippi, connecting with north, south, east and west roads at that point, coming up the Tennessee and Cumberland river valley, tapping coal and iron fields to Hopkville, Ky. Christian county has subscribed \$200,000 to that enterprise. It remains for Clarksville, by proper encouragement, to direct that road back in the Cumberland river valley. The road will come up the Russellville road five miles, and can then cross to Pembroke, which with its three large steamers and one large factory for chewing and smoking tobacco, and two flouring mills, can easily be induced to give \$25,000 to get the road to cross the L. & N. The road will then go down the rich valley of West Fork to Clarksville, up East Cumberland valley to Ashland City and Nashville, thence up the Cumberland valley to Cumberland Gap."

Growing more eloquent as he proceeds he declaims: "Clarksville should with this road, be the rival of Louisville in the tobacco trade, and should ultimately control all tobacco known as Clarksville's and raised from the mouth of the Cumberland to its source. This road if directed to Clarksville would double its population and manufacturing facilities in ten years." Then he turns with mingled alarm and hope to another phase of the subject:

"It will break up all railroad monopolies, giving her independent connection at Nashville with the south and east and at Cairo with north and west road tapping every north and south road from Mississippi to the blue ridge. With this road it will tap all the coal, iron, lumber and agricultural products of the Cumberland valley. It is now at the mercy of the L. & N. road. * * * If this road keeps in the Kentucky country, Clarksville will be irretrievably injured."

"Pembroke" fails to remember that these advantages have already been contracted for and in the following paragraph proposes to deliver his own people into the hands of the Philistines:

"Hopkinsville sees the point and made in the contract with the O. V. road that it shall not go to Clarksville. The same contract does not exist in the other road. Pembroke already ready to contribute enough to turn the road to Clarksville if Clarksville will put forth her hand." He then pictures in roseate colors the advantages to Clarksville: "Her schools will be doubled by the increase of population. This railroad will add 20 per cent to real estate in five years. It will double its population in ten years. It will double its schools, its commerce, its wholesale and retail trade and give it control of the tobacco trade, which it has held heretofore against heavy odds, or will build up a large wholesale trade for Clarksville."

Then summing all his eloquence displayed he says: "Will you not call a meeting of the citizens and appoint a committee to report on this project. Hopkinsville has 1,800 majority to the county vote for a subsidy for \$200,000. Clarksville has but to put forth her hand and reap the benefit of this liberal donation at Hopkinsville. Clarksville will have independent connection through the O. V. with Evansville up the Ohio. She will have all the accommodations needed and will be a great road crossing with a strong west and east road connection with her improving river connection, always controlling rates. What says Clarksville? Is it now or never. Sink or swim. Live or die?"

The last paragraph is especially good and further comments unnecessary.

A number of enterprising citizens of Owenboro are preparing to organize a building and loan association, Hopkinsville, which generally leads all other western Kentucky towns in the way of progress, has had an association of this kind for a number of years and it has been not only a profitable investment, but a blessing to scores of poor men who have paid for nice and comfortable homes with monthly payments that formerly went for rent. Under the plan operated here, it takes about five and a half years for a poor man to pay for his home and be free from the balance of his days. No one thinking we have our superior public schools has done more to bring Hopkinsville to the front than our well conducted building and loan association.

Mr. Elizabeth Selby, of Columbia Mo., has brought suit at Russellville, for \$15,000 worth of property, the estate of David S. Ricketts, supposed to have been his illegitimate son. The claim is contested by the brothers and sisters of Ricketts who claim he was their parents legitimate child and that Mrs. Selby is an impostor.

On a whistling wind the cold wave came
And the winter's bitter fane.
But now the frost turned his face
And so with a smile stepped his pace;
And this is the winter is passing by,

CREAM OF THE NEWS.

A Coal Stealer.

The following item is from the Hieba correspondence of the Hender- son telegrapher: "The miners of this place have been in an uproar for the past few days. A negro was caught stealing coal last Saturday morning by taking the small metal checks, containing several different numbers, and placing his own numbers on the cars that other miners had mined and loaded with coal. About thirty of the miners gathered together and appointed committees. Some

were in favor of making him a present of about fifty lashes, but declined the idea until to-night. It has been reported that about twenty of the miners were at the house where the negro had been staying, but he was too sharp for them and had gone. I suppose if the miners could have found him, a rope would have been the next thing they would have been hunting for. The negro's name is Will Carothers; he is about five feet ten inches high and will weigh about 180 pounds. All miners are advised to look out for him."

A Probable Murder.

At Lexington Saturday morning about 9:30, as John Hodge and Thomas Judd, two cokeburners, were at work at the coke ovens, a dispute arose about their work and Hodge, who was on the lower platform of the ovens, went around to the upper platform, and, seizing a heavy billet of wood, struck Judd a tremendous blow on the head, killing him to the ground. The would-be murderer then made his escape, but was pursued by Police Judge Head and captured three miles south of town and returned to jail. Judd, who had married less than a month ago, is lying in a precarious condition and is not expected to live.

The Very Latest.

Work has been suspended temporarily on the O. V. Extension South from this place to Hopkville. The work was under charge of Mr. Rossister, of this place, who only worked a small force of hands and completed the grading about 500 feet South of the N. N. & M. as far as the line has been located. It is said that work will be resumed in earnest in a short while.—Princeton Leader.

Horace for the City.

The city has purchased two magnificent draught-horses, from Means & Woll, of Louisville, for use in city work and by the fire department. They are bays, young and well-trained and weigh 1,500 pounds each. The price paid was \$450 for the pair. They were shipped from Louisville yesterday and will arrive to-day or to-morrow.

A Sunday Robbery.

Some thief entered the store of Max Solomon & Co., Sunday afternoon, by lowering one of the back windows, and emptied the cash drawers of their contents, about \$5 in silver, nickels, and coppers. They left without molesting anything else. It is thought the thief has been spotted and will in all probability be captured.

Accidental Shot.

A young man named White, a son of H. C. White, shot himself in the arm with a hunting near Trenton last week. In getting over a fence the hammer of his gun caught and the weapon was discharged. The wound was a very dangerous one and the young man was in a critical condition at last accounts.

Staughton House Buried.

The slaughter house of Drexler & Boales, just beyond the city limits on the Clarksville pike, was burned Friday night, leveling upon the owners a loss of \$300. It is not known how the fire originated.

Thrown From A Horse.

Frank White, of Lafayette, was thrown from a horse Thursday and had his right arm broken in two places. It is thought that amputation will be necessary.

THIS AND THAT.

Rogers & Davis' very stable, Fritz's old stand.

Paper sacks for putting up hams for sale at this office, at from 14¢ to 3 cents each.

Herdy Howling and Miss Ruth Bighorn, of Lithonia, eloped to Tennessee and were married on the 16th inst.

Two Italian musicians with a bag-pipe and flute took in the town Saturday and drew a crowd wherever they made a stop.

John White and R. Bert L. Boyd were up in E. Tinsley's court Friday for fighting. Small fines were assessed against both of them.

Geo. Walker, was appointed policeman, yesterday, to serve in the place of O. A. West who is off duty for a few days for the purpose of moving his family from Croton to this city.

Rob. Hooton, a young Englishman who accidentally shot himself Thanksgiving day, while hunting near Clarksville, had to have his arm amputated at the shoulder last week and his recovery is very doubtful.

Miss Emma Green, of Mayfield, and Miss Faunie Bassett, of Providence, entered Bethel Female College as boarding pupils last week. The Literary Society is to discuss the works of Holmes next Friday evening.

The four police officers now put in all of their time in the day and two of them stay up every other night. They are making most excellent officers but are over-worked. The Connell will be asked to put on a night policeman, at the next meeting. This will probably be done by reducing the pay of other officers, who are paid too high salaries.

It was further more agreed that the tobacco board build and equip the building within themselves. The committee was composed of the following buyers and warehousemen: Buyers, C. F. Jarrett, W. A. Lowry, J. D. Ware; Warehousemen, F. W. Dabney, H. L. Abernathy, W. G. Wheeler.

The committee was instructed to make report of their progress at the regular meeting February 16th. M. H. Tandy, Secy protom.

SILVER WEDDING.

The 25th Anniversary of the Marriage of Mr. and Mrs. Lyman McComb.

The Pembroke Criterion gives this account of an affair at Pembroke of which the KENTUCKIAN could get but a meager report at the time:

"One of the most enjoyable occasions that has culminated the New Year was the silver wedding reception at Mr. and Mrs. Lyman McComb's on the 12th inst. A more beautiful day could not have been selected, and we thought as we looked at the bride and groom of twenty-five winters how like the day had been their lives—so comparatively free from clouds and tempests, and how lightly the years had dealt with them. The bride began to arrive about 10 o'clock and were received by Miss Daisy McComb, who did the honors of the occasion with great credit. Her handsome brothers stood with each other in their attire, attention to the wants, pleasure and entertainment of those present. Several delightful hours were spent in the beautifully decorated parlors and when the order was given to march the doors were thrown open and we repaired to the spacious dining-room where such a vision of good things met our eyes as has seldom been our pleasure to witness. The beautiful chintz and silver were almost eclipsed by the equally elegant array of delicates—cakes, and in fact, everything that would please the eye and tempt the appetite. After many beautiful congratulations and good wishes to our general host and hostess, we departed to our several homes, all feeling that a more delightful afternoon had never been spent. We sincerely wish the happy couple may live to celebrate their golden wedding with their large family circle unbroken."

We wish to call attention to the extensive advertisement of Forbes & Bro. in this issue, they are receiving daily car load after car load of seeds, implements, barrel wire, bugle, harness, etc. They now have three immense warehouses with floor space of over 50,000 square feet and they are all full. Their stock in all lines is complete and much larger than ever before. The farmers can get anything they need and have a more complete assortment to select from than elsewhere; they represent and sell nothing but first class goods and the leading implements, and they keep a full line of repairs for their implements. The goods are all bought at the lowest market price and will be sold at bottom prices.

THE EXCHANGE.

Official Report of the Recent Meeting of the Tobacco Board of Trade.

At a call meeting of the tobacco board of trade, representing the buying and selling interests of the market, it was unanimously and enthusiastically agreed that the importance and permanency of the trade as well as the best interest of the market and the city and all concerned, that the board of trade, as a board and as citizens, looking to the best interest of the market and the city, as the center of a large interest, take steps at once toward the erection of a tobacco exchange and board of trade building, that will do credit to the trade and the city.

It was resolved and unanimously carried, that a committee of six, composed of three warehousemen and three buyers be appointed by the chair to look into the matter of securing a permanent and suitable site, adjacent or near to the business center, and to price same. Also to solicit plans and specifications for a building to cost from fifteen to twenty thousand dollars, ground included, also to cause the business community and ask their aid in the enterprise.

It is the sense of this meeting that a handsome and convenient exchange building will add very materially to the interest of the market, and will be a source of permanent increase and comfort for the future, and as our trade is now, and will be for ages to come, direct with Europe, the purpose is to show an enterprising spirit, making a permanency of it and we propose to make such a building as will be an ornament to the city and useful in every respect.

It was also moved and unanimously carried that the Commercial Club of Hopkinsville be asked to co-operate and assist us in the venture, and with their assistance we see no cause for failure.

It was further more agreed that the tobacco board build and equip the building within themselves. The committee was composed of the following buyers and warehousemen: Buyers, C. F. Jarrett, W. A. Lowry, J. D. Ware; Warehousemen, F. W. Dabney, H. L. Abernathy, W. G. Wheeler.

The committee was instructed to make report of their progress at the regular meeting February 16th. M. H. Tandy, Secy protom.

BACK TO EARTH.

Those Worn Bodies Have Been Given Back to Mother Earth.

An infant child of W. H. Charlton, of the Antioch neighborhood, died Friday.

Within the last two weeks three patients have died at the Asylum. A man named Conner, who had been there for 30 years, another named Itay, from Grayson county, and the third a man named Donaldson, who died Sunday.

PRISCILLA spinning, long ago, sighs as she thinks how soon her linen Will lose its glossy luster, when the wash it once or twice has been in. She does not know that in the soap the evil lies that makes her suffer. Its great excess of alkali, which cuts the fiber, makes it rougher.

Our modern maidens need not sigh since Ivory Soap has been invented, Containing no free alkali—by which the ruin is prevented. For linen washed with Ivory Soap in snowy beauty'll ne'er diminish, But always, while it lasts, preserve its pristine gloss and lustrous finish.

A WORD OF WARNING.

There are many white soaps, each represented to be "just as good as the 'Ivory';" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it.

Do you want to go to New York for 20 cents, and make a round of the different amusements indulged in by the inhabitants of the great metropolis? We have just returned from such a trip, and must admit that we were charmed. We did not go in person, but our minds were carried there by reading the beautifully illustrated article on the "Amusements of New York City," in the **Illustrated Popular Monthly**, and a monthly magazine which has just arrived. It includes this world-famed Family Magazine we can account for its immense circulation. The February number contains a water-color, "To the Rescue," beautifully executed, and over a hundred illustrations of a high order. While excellent stories are introduced to amuse the practical articles are of great merit; and just at this season the "Pilgrim of the Month" is "Paris Tindley." It is fully explained and illustrated; in fact, a corner is found to interest every member of the family. Published by W. Jennings Dornest, 15 East 18th Street, New York.
